Rutabaga.....		20c "
Onion seed, Red Wethersfield, fresh stock.....		1 20 "

TERMS.—Thirty days. We are the largest dealers in Millet Seed in the west. Our stock is all raised by ourselves and others in this vicinity and we guarantee it to be last year's crop and northern grown, which is necessary to be sure of a good crop. Southern grown millet is not reliable in this climate. We have a fine stock of seed corn which was cured by ourselves and under our direct supervision. Our Early Yellow Dent is from a field that yielded 73 bushels per acre.

Correspondence and inquiries solicited. Samples on request.

REPORTER PRINT.

Yours Truly, BAIRD, DEAN & CO.
